surfing

The waves in front of the Inn are virtually your own! There are no crowds here. Just grab your board and walk to the water's edge. A short paddle will take you directly to the surf break. For more variety surf the "wave machine" at nearby Saladita, or the predictable beach break just down the road or one of the many other "secret spots."

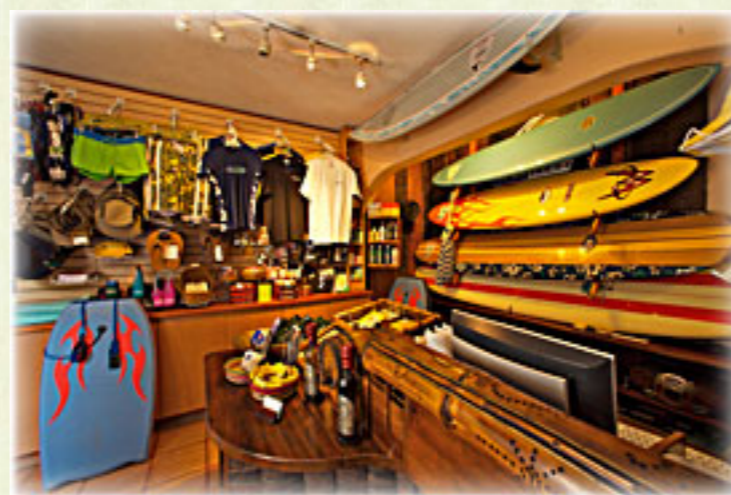

Don't know how to surf?

No problem. Surf lessons are available from local instructors.

Didn't bring your board? We sell and rent top-of-the-line equipment and have everything you need for your surf vacation including rash guards, leashes, waxes, surf and beachwear.
